Subject: Comments on the Draft OCP

Hi Graham,

Thanks for providing staff at the District of Mission the opportunity to review and comment on the Draft Official Community Plan for Hatzic Valley, Electoral Area "F".

With regard to the Limited Use Designation section specifically Section 5.5.6 which states:

"LIMITED USE areas may be reduced and re-designated if future studies show that an area can safely accommodate a broader range of uses without environmental damage, unacceptable public risk, or excessive public expenditure on access or other public works".

It is noted that many properties within this proposed designation are located adjacent to the border of the District of Mission. Could you please confirm if applications for redesignation (OCP amendments) for properties along this border will be referred to the District of Mission for comment.

If these applications are to be referred then we do not have any other concerns or comments with regard to the draft OCP.

Regards,

Shannon
