**Date:** August-16-10 9:53:38 AM

---

Hi Graham,

I have just received your letter dated July 20, 2010, addressed to Joe Hall. Your letter requests input into the new Official Community Plan for Hatzic Valley. As the Sto:lo Research and Resource Management Centre has recently been mandated to process and address referrals on behalf of the Sto:lo Nation, I am contacting you to notify you that we have received your document for review.

I see that input has been requested by September 4, 2010, but I am not certain that meaningful dialog could be facilitated in that timeframe. Is this a firm date for the district in terms of adopting the new plan? A better idea of time constraints would be helpful in determining how best to approach your request. Please call or email to discuss further.
